

2026 2nd Taiwan International Model United Nations (TIMUN) Conference Prospectus

I. Background

Model United Nations (MUN) is an international academic activity that simulates the operation of the United Nations. Many countries, cities, and schools worldwide have their own MUN clubs or hold similar conferences. In Taiwan, where diversified education and global engagement are emphasized, more and more youth forums and academic events are adopting the MUN format. Nearly a hundred universities and high schools in Taiwan have established MUN clubs, underscoring the growing significance of this form of experiential learning.

In MUN conferences, participants take on the roles of diplomats from countries other than their own, engaging in negotiation and debate from their assigned country's perspective. They must understand national interests, formulate policy statements, and simulate the decision-making process of international diplomacy. Through this process, participants cultivate analytical, communication, and collaboration skills vital for global citizenship.

This event is co-organized by Longteng Education Co., Ltd. and the Commerce Development Research Institute (CDRI), with academic support from the Taiwan Model United Nations Association (TMUNA). The conference aims to foster students' global vision, empathy, and intercultural communication skills through simulated international dialogues. Participants will gain practical experience in global issues, procedural rules, and collaborative problem-solving — all key to strengthening international literacy and competitiveness.

The two-day event features four formal sessions. Day 1 includes the opening ceremony, training sessions, and the first two simulation sessions. Day 2 consists of the remaining sessions, followed by the closing ceremony and awards presentation. All conference themes are aligned with the United Nations Sustainable Development Goals (SDGs) and are related to the mandates of UN and international committees, with a particular focus on economic development, industrial innovation, social justice, and global partnerships.

II. Organizers and Co-Organizers

Organizers: Longteng Education Co., Ltd. and Commerce Development Research Institute (CDRI)

Academic Partner: Taiwan Model United Nations Association (TMUNA)

Supporting School Clubs: Zhulin Senior High School, Dongshan Senior High School, Fudan Senior High School, Sung Kwang High School, Wuling Senior High School, Jiahua High School, Zhuqi High School, Magong High School, and others.

(1) Longteng Education Co., Ltd.

Longteng Education Co., Ltd. (hereafter Longteng Education) is a leading educational publishing company in Taiwan, specializing in the development and publication of high school and

vocational school textbooks, reference books, and teaching materials. With a professional editorial team and rigorous publishing standards, Longteng has become one of the most trusted names in Taiwan's educational publishing sector.

Guided by the philosophy "Education for Sustainability × Creating a Better Future," Longteng Education emphasizes the cultivation of self-learning ability and innovative thinking. The company collaborates closely with academic institutions and educators to develop cutting-edge learning resources and methodologies that enhance overall education quality. In alignment with the UN Sustainable Development Goals (SDGs), especially those related to education and social responsibility, Longteng produces standardized textbooks, reference books, and digital learning tools that help students acquire essential knowledge and skills for the 21st century.

(2) Commerce Development Research Institute (CDRI)

The Commerce Development Research Institute (CDRI) is Taiwan's national think tank for service-industry innovation and development. Its mission is to strengthen the foundations of the service sector, foster high-value and innovative service models, and enhance global competitiveness through research and knowledge integration.

With its focus on "foresight, innovation, and internationalization," CDRI serves as a collaborative platform connecting industry, government, academia, and research institutions. It also participates actively in global economic organizations, including the United Nations Centre for Trade Facilitation and Electronic Business (UN/CEFACT), contributing to international digital trade standards and co-authoring the White Paper on Sustainable Tourism Business Standards with experts from multiple countries.

III. Objectives

1. To cultivate students' global awareness, independent thinking, cultural respect, and intercultural communication skills through MUN discussions.
2. To enhance students' understanding of international procedures and governance, strengthening their sense of global mission and competitiveness.
3. To develop critical thinking, reflection, and multi-perspective analysis skills through the simulation of diplomatic negotiation and global issue analysis.

IV. Guiding Organizations

(To be invited)

- Ministry of Foreign Affairs (MOFA), Republic of China (Taiwan)
- Taipei City Government Youth Development Department
- New Taipei City Government Secretariat

V. Dates and Venue

Dates:

- January 24 (Sat), 2026 09:30 – 20:00
- January 25 (Sun), 2026 09:00 – 18:00

Venue:

1. Main Venue: Boya Lecture Hall, National Taiwan University (No. 1, Sec. 4, Roosevelt Rd., Da'an Dist., Taipei City 106216)
2. Social Banquet: [Gugo Kitchen](#) (No. 85, Sec. 4, Roosevelt Rd., Da'an Dist., Taipei City 106032)

VI. Eligibility and Quota

1. Eligibility: Open to high school and college students (any nationality) currently studying in Taiwan who possess at least CEFR B2-level English proficiency (or equivalent certification) and are interested in MUN or international affairs.
2. Quota: 120 participants (approx.).
3. Priority Admission:
 - Applicants with CEFR C1-level English or higher
 - Students in language-gifted programs

3. Applicants must submit a PDF motivation statement (max 500 words) in English when registering.
 - Font: Times New Roman Size: 12 pt Line spacing: 1.5×
4. Certificates of participation will be issued to attendees who complete both days.
5. Awards will be presented during the closing ceremony:
 - Best Delegate NTD 3,000 (4 recipients)
 - Outstanding Delegate NTD 2,000 (8 recipients)
 - Honorable Mention NTD 1,000 (8 recipients)
 - Best Position Paper NTD 1,000 (4 recipients)Total 24 awards; Total Prize Fund = NTD 40,000 (subject to change)
6. Award Rules:
 - Prizes and certificates will be issued at the closing ceremony.
 - According to Taiwan's tax regulations, prizes exceeding NTD 1,000 are subject to withholding tax and must be declared in annual income tax filings. Winners must present valid ID for verification.
7. Conference Details:
 - Format: Two English committees, four sessions total.

- Chairs: Three per committee.
- Delegates: 30–40 delegations (single or dual representation).

VIII. Topics & Committees

The 2026 TIMUN focuses on the role of **Artificial Intelligence (AI)** in global governance and international cooperation, exploring its implications for economic development, the digital divide, global security, and ethical standards.

1.

Topic: Harnessing Artificial Intelligence for Inclusive Economic Growth through the WTO Framework

Category: International Trade and Economic Development

Committee: World Trade Organization, WTO

Introduction: Artificial intelligence is transforming the global economy by reshaping industries, trade flows, and patterns of innovation. Within the framework of the World Trade Organization, discussions on AI increasingly focus on ensuring that technological progress fosters inclusive and sustainable economic growth rather than deepening inequalities between and within nations. Delegates are encouraged to consider how AI impacts commerce, cross-border services, intellectual property rights, and market access, while also addressing the challenges faced by developing economies in integrating AI into their growth strategies. The WTO will explore cooperative approaches and regulatory mechanisms that promote innovation, inclusivity, and fair competition in the digital era.

Related SDGs: SDG 8 (Decent Work and Economic Growth), SDG 9 (Industry, Innovation, and Infrastructure), SDG 10 (Reduced Inequalities), SDG 17 (Partnerships for the Goals)

2.

Topic: Addressing the Economic and Security Implications of Artificial Intelligence in Counter-Terrorism

Category: International Security and Legal Cooperation

Committee: United Nations General Assembly Plenary, UNGA Plenary

Introduction: Artificial intelligence is increasingly deployed in the field of terrorism and counter-terrorism, from surveillance technologies and predictive analytics to financial monitoring and cyber defense. While AI offers significant potential in strengthening international security, it also raises profound economic, ethical, and legal challenges. The economic dimension includes the allocation of resources, the potential misuse of AI in financing or supporting terrorist activities, and disparities in technological capacity between states. Within the General Assembly Plenary, delegates will discuss how the international community can develop cooperative legal and security frameworks to regulate the responsible use of AI in counter-terrorism, ensuring economic stability, the protection of human rights, and the upholding of the international rule of law.

Related SDGs: SDG 8 (Decent Work and Economic Growth), SDG 9 (Industry, Innovation, and Infrastructure), SDG 16 (Peace, Justice, and Strong Institutions), SDG 17 (Partnerships for the Goals)

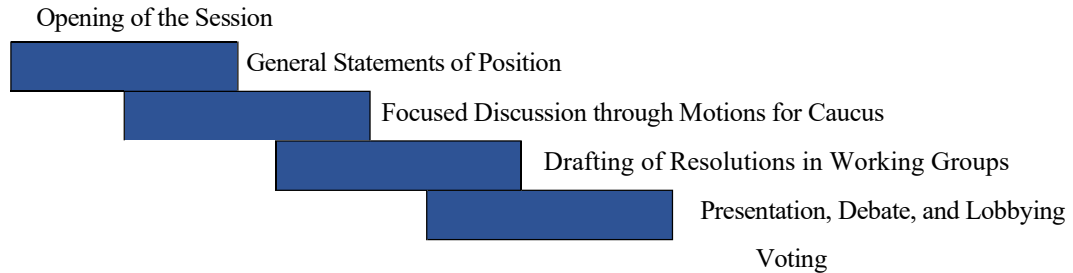

IX. Agenda Overview

January 24, 2026 (Sat.)				
Time	Activity	Venue	Host
